Discussion Information:

- (1) The most important policy I have is that you be respectful of me and your peers. One thing this includes is cell phone use. It is extremely disrespectful and disruptive when a cell phone goes off during any classroom setting, so please silence your phone during class time.
- (2) Another important policy is: Please DO NOT cheat. It undermines the efforts of you and the other students. Anyone who cheats will be dealt with to the fullest extent of UCR academic policies. There probably won't be much this will apply to in this discussion, however, it is a good policy to remind you of.
- (3) While attendance is not strictly mandatory, on August 23, September 20, October 25, and November 15 new material will be covered in discussion.
- (4) There will be a total of 10 points issued over the course of discussion, more or less, one for each discussion attended. While it is in your best interest to attend (especially on the above noted dates), you really only need to show up 10 times to get full credit for discussion.

Note: This is a representative list of policies, but not necessarily all inclusive.
